

Jeff Mburu

Web Developer

Hello there, I am a web developer with a solid foundation in computer science and experience in developing and maintaining dynamic websites. Recently graduated with a Bachelor's degree in Computer Science, I possess a strong understanding of web technologies, programming languages, and software development principles. Ready to apply my technical expertise and creative problem-solving skills to your organization and looking forward to contributing to challenging projects.

PERSONAL PROJECTS

Stark Web (11/2023 - Present)

- Am passionate about empowering businesses through technology, I founded my own web development service, aiming to help local businesses transition to an online presence. By creating custom websites tailored to their unique needs, I have enabled my clients to expand their reach and engage with a broader audience. My dedication to converting traditional businesses to digital platforms has not only increased their visibility but also boosted their customer engagement and sales. I am committed to leveraging my skills to drive growth and innovation in the digital landscape.
